AN AUTO CAFE IN RICHMOND

One May Eat and Drink from a Slot Machine.

BREW YOUR OWN TEA

Drop a Nickel in the Slot and Get a Plece of Mince Ple and a Cheese Sandwich-Amusing Incidents.

No longer need a hungry man in Richwith twenty-five cents or less in his pocket, after midnight or during the of the Sabbath, go without the means by which to slack his thirst or appease his hunger.

Most of the restaurants in Richmond close shortly after midnight during the week, and about all of the lunch counters are out of business on Sundays. As a reexcursionists and other strangers in the city have experienced trouble in getting things to eat in off hours, at small flaures.

No longer need this condition of things confront the stranger, for the auto-cafe will serve him at any hour of the day or

The auto-cafe is a mechanical device, worked on the automatic scheme, by which a person wanting a cup of coffee or something to eat may simply drop a nickel or a dime into a slot, push a buttom and get what he desires.

ATTRACTIVE PLACE. The auto was opened up the other day by Mr. H. B. Kirkwood, the well known restauranteur. He spent about 18,000 on it, and if he finds it necessary will spend more to accommodate the public. From the front it is a most attractive place, with comfortable chairs, with convenient side arms for placing plates and cups, and with nice little tables scattered around, with plates and spoons and forks and other necessary articles thereon.

If a man wants a cup of coffee, all he has to do is to take a cup from a hook hanging conveniently near, which he places on a stand beneath an ornamented spout. Then he drops a nickel in the slot, pushes the button, and a stream of coffee rushes through the spout into the cup. The fluid does not run over the cup. The mechanism of the machine is so accurate and delicate that it switches the coffee off just as the cup fills. Then on, a side table is found the sugar and cream and spoon, and a napkin. That is all.

A man has the sweet satisfaction of The auto was opened up the other day

on a sun and spoon, and a napkin. That is all.

A man has the sweet satisfaction of waiting on himself, with no waiters standing at his side or in front of him, and he is left to his own honor about the spoons and knives and forks.

Almost the same process is gone through with for a piece of pie or a sandwich or a deviled crab or a dish of saiad.

HIS OWN COOK.

A customer brows his own tea. Drop a nickel in the slot, when, lo! and behold, down comes a little silver tea pot, with gieen, dry tea in it. The man who never camped out, would hardly know what to do with that tea. But the fellow who is "wise" and "next" will simply draw a cup of hot water from the splgot, next the slot, and, with the addition of sugar and cream from the table, if he pleases, he may make his own tea.

Some amusing incidents have occurred at the Auto. One young fellow wanted a cup of coffee. He put his nickel in the slot, but failed to put the cup under the spout. The result was an overflow of coffee, and in his excitment the young man grabbed his hat and held it under the spigtot.

Another young man, with a lady,

grabbed his nat and need it under the spigot.

Another young man, with a lady, wanted to draw; two glasses of milk. He dropped a dime in the slot, and held his glass expectantly under the spout. It wouldn't work, of course, and he got his money back. Then he put in a nickel at a time, with successful result, and he and his young lady enjoyed their luncheon at one of the side tables.

This is the third device of this kind in the United States. There is one in Philadelphia and another in New York. It seems to have been an instantaneous success, for hundreds of people, men, women and children have become regular patrons of the unique restaurant.

Whiskey and Beer Habit "ORRINE,"

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whishes, beer or wine eats away the stomach lising and supefice the digestive organs, thus destroying the digestion and rining the health. No "will power" can heal the linfamed stomach membranes.

"OR RINE" permanently removes the craving for liquor by acting directly on the affected neives, restoring the stomach and digestive organs to normal conditions, improving the support of the conditions of the stomach and digestive organs to normal conditions, improving the support of the conditions of the conditions of the support of the conditions of the condition

ABANDON SCHOOL OF TECHNOLOGY

As a Curry Memorial Richmond College Will Not Press II.

The proposition, to establish at Rich mond College a general school of technology as a memorial to the late J. L. M. Curry, whose efforts were so largely turned in the direction of technical education and whose long connection with the college made that institution a fitting

rather unfavorable.

The mortal wound to the movement however, was given recently, when it became known that not a cent of the money left by Mrs. Curry was to go to the collegs. One of the officers of the college said a day or two ago that what was left of the movement died a natural death when the will of Mrs. Curry was read. The men who had been asked to contribute would no longer be willing to give if the immediate relatives of Dr. Curry thus falled to interest themselves in the plan. Hence the proposition has been abandoned or practically so.

This does not mean, however, that the college is to have no technological department. The authorities of the institution have for a long time been anxious to make this important additions and the idea has by no means been dropped. It

A RECEPTION TO **GRAND OFFICERS**

A Great Meeting of McCarthy Council to Be Held on October 15th.

An important meeting of McCarthy Council, No. 468, Royal Arcanum, was Council, No. 468, Royal Areanum, was held Thursday night at Lee Camp Hall. Several candidates were present for initiation, and a report of progress presented by the committee in charge of the reception to be tendered the grand officers on their visit to the council, which will take place on the night of October 15th. While the programme for that event has not been fully formulated, enough has been accomplished to insure an entertainment worthy of this progressive council. After conferring the degrees upon a number of prominent citizens, a social session will be held. The latter will be open to friends of members of McCarthy Council.

Council.

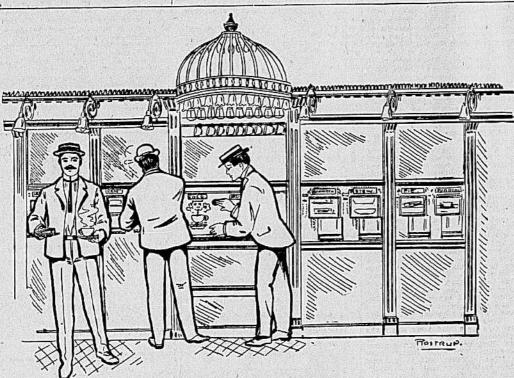

Addresses will be delivered by the grand officers, musical numbers will be rendered by some of the best local talent, after which refreshments will be served.

The Grand Regent will be accompanied by the full Executive Committee, who desire, by their presence, to attest their appreciation of the splendid work of McCarthy Council, which in point of the personnel of its membership, as well as its rapid strides in numbers, is one of the banner lodges of the State.

DANCING AT SHIRLEY

Lawn Party at Granville Episcopa Chapel.

(Special to The Times-Dispatch.)
CHARLES CITY C. H., VA., September
19.—The entertainment given at Shirley,
or the games, on Wednesday evening was
a most charming affair, it was given in
honor of Miss Marion Thompson Clark
and Miss Sophia. Quite a number of

THE AUTO-RESTAURANT AT WORK

has practically been abandoned by the authorities of the school.

For some little time after the movement was begun, it was understood from the president of the college and others that the committee appointed in connection with the matter had met with reasonable encouragement from the friends of the distinguished minister and state-shan. About a half-million dollars was needed to carry out the plan as proposed, and the matter was laid before the wealthy mer of the North and the South. While in large contributions were made it was reported that the advances of the colleges were met with no inconsiderable encouragement. Unfortunately this did not keen up, and when the trustees met in annual was begun, it was understood from the

Example: ABUNDANT HAIR PLUS DANDRUFF MICROBES, PLUS A FEW YEARS, EQUALS BALDNESS.

NEWBRO'S HERPICIDE

Do You Know? Many physicians contend that our school children should be aught the symptoms of contagious diseases, and also the theory and practice of hygiene and sanitation. Sanitary science "includes the consideration of all that can be done for the prevention of disease and the promotion of health." The above description by an eminent medical authority fully explains itself. ALL THAT CAN BE DONE, it says. This, in individual cases, means all that the person hows to do. Now, if the person DOES, NOT KNOW, he must pay the penalty of his ignorance. BALDNESS IS A CONTAGIOUS DISEASE, CAUSED BY A MICROBE. Prof. Unna, of Hamburg, Germany, discovered that dandruf, itching scalp, falling hair and final baldness are produced by a germ or microbe that passes from one head to another, where it burrows into the scalp, and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces baldness. It takes years to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat its growth and multiplication, at the time dandruff makes its first appearance; for, until dandruff appears there is no means of knowing whether the dandruff microbe has planted itself in the scalp or not.

Portsmouth, O.

is past the experimental stage. It was made to destroy the germ that causes dandruff and falling hair, and by coaring energy back into the impoverished bulbs, it enables the hatr to grow naturally and luxuriantly. Thousands of letters from physicians, clergymen and laymen tell the same story & its wonderful success

An Ideal Hair Dressing.

It is fortunate for those who understand the new rules for scale cleanliness that the antiseptic qualities of Newbro's Herpicide make fi the most delightful and refreshing hair dressing imaginable. Before our remedy was so widely known we received the following letter from G. S. Long, No. 522 Sala Aye., Rochester, N. Y.; "I made the acquaintance of Herpicide in Yukahoma, Japan, bought a bottle in San Francisco, was made comfortable and happy with its use, and I recommend it to all my friends, but now my local druggist seems to know nothing about it. What am I to do?" Chronic baidness is incurable, BUT AS LONG AS THERE IS HAIR THERE IS HOPE, and a course with THERE IS HAIR THERE IS HOPE, and a course with Newbro's Herpicide may bring results that will surprise you. It has cured many cases of primary baldness.

DESTROY THE CAUSE...YOU REMOVE THE EFFECT. MR. BURT'S LETTER.

"Newbro's Herpiciae, the dandruft cure, is strictly first-class. It removed the dandruft from my head in two applications."

(Signed) C. C. BURT.

Have used nearly a bottle of Herpicide with most gratifying results. My hair was falling out very rapidly, and I had used several remedies with no results; but, after the second application of Herpicide I could see wonderful changes. My head stopped itching, dandruff stopped forming, and the hair stopped falling out, and new is coming in. I will gladly recommend Herpicide to each and all who need a hair restorer and dandruff cure.

Touchin' on an apperaum to bucking against the Books, I did my bit on
one occasion and that was a plenty for
me, I felt so much put out when the
race was over that I swore off instantor.
And what is more I have an ingrowing
suspicion that will keep that pledga
until they hang up my number in some
graveyagd. graveyard. To butt right into the relevant facts

gravyayd.

To butt right into the relevant facts of the case. I was leaning against the rail in a Broadway Life Saving Station one August morning several years ago, absorbing an Absinthe France when an angelle looking gazabo came in and ordered a dose of the same. I saw that he had reached that stage of a bat where one does not feel safe if alone, and as I feit that I was in the vicinity of the same condition I stepped up to him and proposed that we hang together for our numural protection. My motion was unanimously accepted, so we ordered another pair of bracers.

As we were assimilating the second crop of Morning Glories my friend—we were now friends—turned to me with voice full of emotion and remarked:

"How are they coming, old man?"

"Ain't coming. They are still at the post," A repiled.

"They are running against you long?" in-

"Ann't coming. They are still at the post, I replied to "Been running against you long?" in-quired my pal as he began to cry 'even as you and I—after a few glasses of the

green."

"Yep."

"All in."

"Anything in sight?"

"Just trouble, That's all."

"Want to make a killing?"

"Can' you keep a secret?"

"Weell, we walked to his tavern, which was one block down Champagne Alley, and after stepping into the cafe to altend to a little matter of a purely social character, we proceeded to his room.

On entering the luxuriously furnished apartment, Pal locked and bolted the door. Right then I tried to get a line on my finish into the corporate limits of my mentality. I went to the window to size up the lump and get a bit of fresh air, and as I peeped over my shoulder to see how things were coming. I saw Pal lift two fur-lined overcoats from his trunk. One of them he put on and the other he forced me to enter. Now a fur-lined overcoat is not especially becoming to me in midsunment, but the door was locked, the jump was three stories, and Pal said wear it, so —. Well, I wore it.

"Our Jock Turned on the Electricity."

of those yellow-backed sheets from Uncle Sam's Bureau of Engraying, and met Pai in the betting shed just before our thing went to the post. The bookles were offering 100 to 1 against the word will be sent postpald upon request. NOTE—The missing letters of the last word will be sent postpald upon request. B. B.

Not Selling to Hotels.

Ar. John Bartholomew, of Belfast,

of a dozen Slate Holders have it on interest until the race was over.

In due time the flag fell on the bunch and they began to nogotiate the seven furlongs. At the start our bangtail took the lead and got five lengths to the good before the others estail. Pal kinder glanced at me out of the corner of his eye and smiled one of those little itsashame-to-take-the-money smiles. Every time our nag made a jump I made up my mind to buy something. Before he reached the quarter I had spent \$1.000 of my winnings. When he arrived at the half, two lengths in the lead, I was sore because I hadn't bet a century—otherwise about a yard from the ground. When he got back to sarth every har was on each his fail was in the air, the open and sparks flew from the ground. When he got back to sarth every har was on each his fail was in the air, the open and sparks flew from the ground. When he got back to sarth every har was on each his fail was in the air, the open and sparks flew from the ground. When he got back to surth every har was on each his fail was in the air, the open and sparks flew from the ground. When he are set the back, the mouth was wide open, and a Fast Freight. With the bit between his teeth he world like a bit of Christmas fire-works world like a bit of Christmas fire-works. When Pal recovered from the shock,

Not Selling to Hotels.

Arr. John Bartholomew, of Belfast, Iroland, is in the city at present, representing a large firm of lines manufacturers. Mr. Bartholomew wishes to state emphatically that he is not selling, or has sold, any linens to hotels. His dealings are solely with the retail concerns, confining his business to them only.

In the city Circuit Court yesterday suit was instituted by Walter J. Todd vs. Pat McDonough and Dr. L. B. Batkins, rading, &c., for 88.70. So far the declaration has not been filed.

Judgment was confessed in the case of D. O'Suillyan vs. William Noitage for 193
